Zoom etiquette

- ▶ Make sure you are on mute throughout the presentation.
- ▶ Your participation in the poll questions is important.
- ▶ If you have questions for the presenters, put them in the chat box.
- ▶ Questions and Answer time will be held at the end of the presentation.

Please and Thank you!

Today's Moderator

Chris Domasin, MS Counseling, LMFT
Mental Health Service Provider
Oxnard College Student Health Center

Objectives for today's symposium

- ▶ Objective #1: Increase awareness of behavioral-mental health careers and their related pathways.
- ▶ Objective #2: Identify where to locate behavioral-mental health related educational programs.

Today's Agenda

- ▶ Brief Introduction
- ▶ Four Career Presentations
- ▶ Question and Answers

What is mental health?

Mental health, as defined by the World Health Organization, is “a state of well-being in which every individual realizes his or her own potential, can cope with the normal stresses of life, can work productively and fruitfully, and is able to make a contribution to his or her community.”

FACT

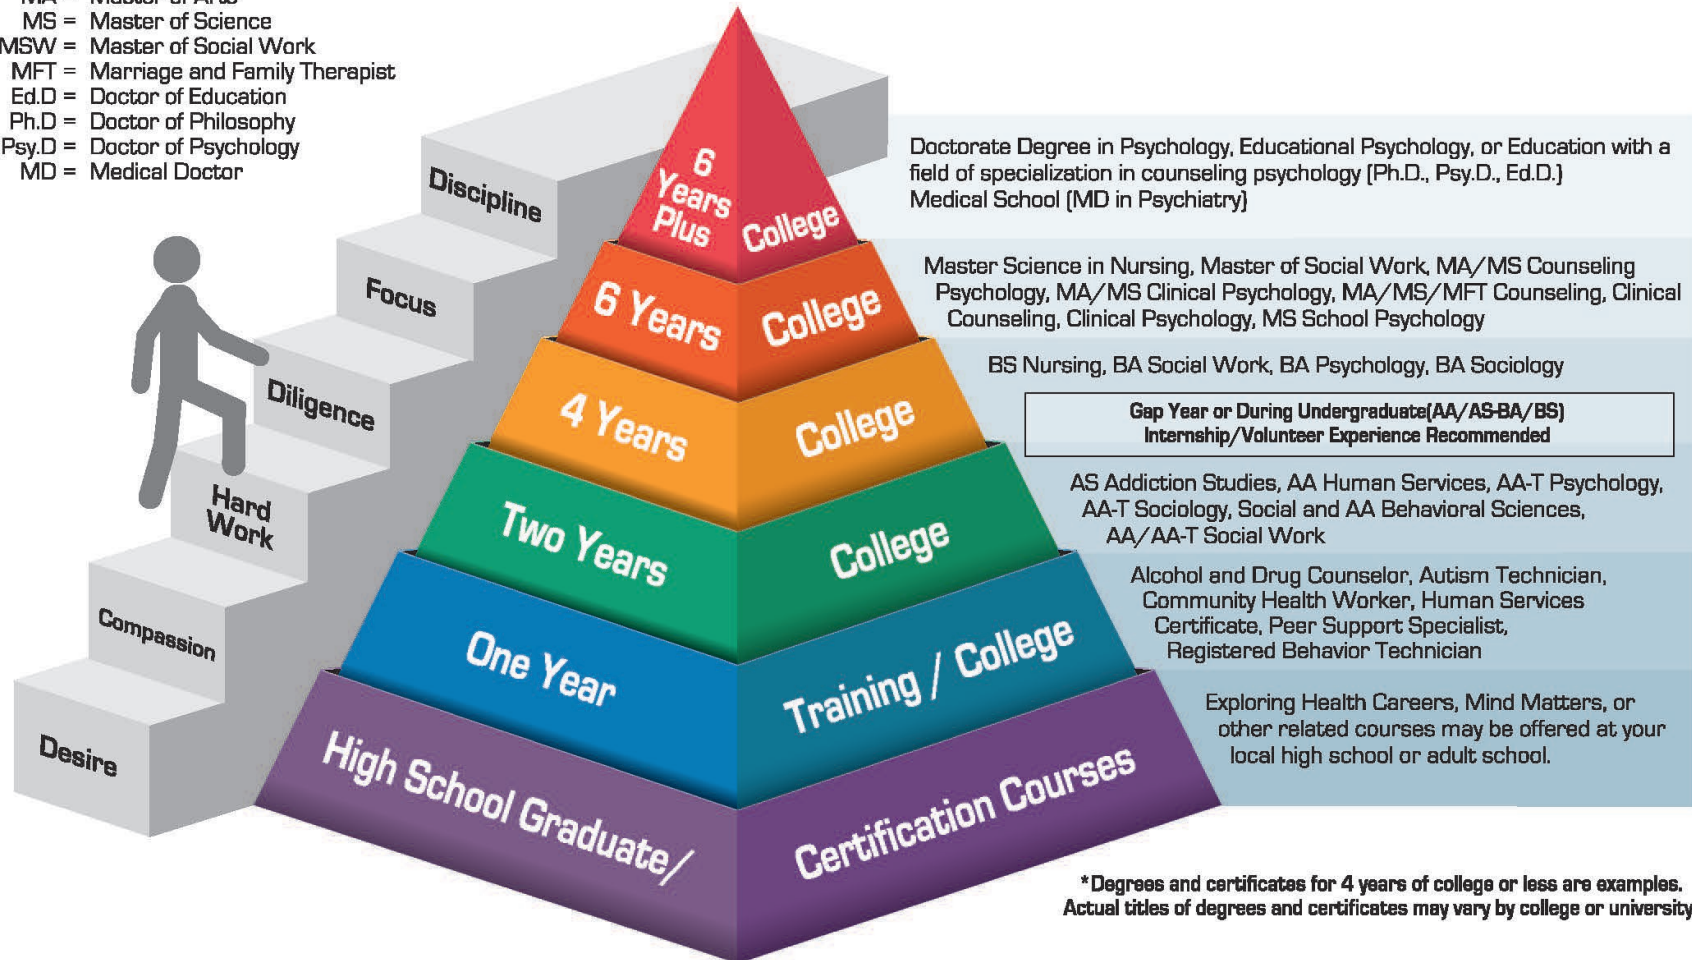

- ▶ We all experience different levels of mental health throughout our lives.
 - ▶ Depression is the leading cause of disability worldwide.
 - ▶ *Over 44 million American adults (18.07%), have a mental health condition.*
 - ▶ Less than 50% of U.S. adults with mental illness received treatment in 2018.

There are not enough mental health professionals to go around.

***Pursuing a career in behavioral health
can put you in a position to help others.***
