

Component IV: Systems

Module C: Health Care Trends

Topic 1: Quality and Safety

I. Statement of Purpose

Evaluate several quality and safety organizations that set the standard for ambulatory care practice.

II. Terminology

1. Evidence-Based Practice
2. Competency
3. Clinical Standards
4. Patient-Centered Medical Home

Acronyms

1. ACO (Accountable Care Organizations)
2. NCQA (National Committee for Quality Assurance)
3. PCMH (Patient-Centered Medical Home)
4. QSEN (Quality and Safety Education for Nurses)

III. Performance Standards

1. Compare national and regional organizations guiding quality and patient safety in ambulatory care.
2. Describe and compare systems for Patient Centered Care in Patient Care Systems.
3. Analyze the national and private health care reform differences in Health Care Reform
