Costa Mesa, CA 92626

FREE Workshop for middle and high school healthy pathway instructors!

The Health and Science Pipeline Initiative (HASPI) and the Health Workforce Initiative (HWI) are working together to provide an opportunity for Orange County area teachers to learn more about incorporating medical and healthcare career information into their course(s).

Participants will network review and receive standards based curriculum resources, and learn more about healthcare industry and college/university training programs. *Note: Curriculum Information will be new or updated with NGSS/CCSS standards for teachers who have attended past HASPI/HWI workshops.*

❖ Target audience: middle and high school health pathway educators

❖ Conference is **free** for all attendees

❖ Continental breakfast and lunch will be served
