Faculty strive to create a learning experience that stimulates discussion and active learning while maintaining a respectful and safe environment. However, many faculty express frustration with the inappropriate or disruptive student behavior they encounter. This webinar will provide faculty small, yet powerful, strategies to develop a healthy and productive learning environment.

#### **OBJECTIVES**

- Discuss factors that can erode trust and behavior in nursing education settings.
- Identify three strategies to cultivate a healthy and productive learning environment.

#### **PRESENTER**

#### **Susan Luparell, PhD, ACNS-BC, CNE**

Dr. Luparell holds a doctorate in Administration, Curriculum, and Instruction with a focus in Educational Leadership and Higher Education. A Fellow in the Academy of Nursing Education, she is a nationally recognized speaker on how to foster healthy learning environments for students, faculty, and staff within nursing education. Her scholarship focuses on the ethical implications of incivility, including how it affects others and how it can be managed in academic and clinical settings.
