Fw: Clarification on DE policy in light of the COVID-19 outbreak

From: Lehr, Justin@DCA <Justin.Lehr@dca.ca.gov>
Sent: Wednesday, July 22, 2020 5:01 PM
To: Hulshof, Lidia <Lidia.Hulshof@mvc.edu>
Subject: [EXTERNAL SENDER] Clarification on DE policy in light of the COVID-19 outbreak

Hello Linda. My name is Justin and I am the Education Coordinator for RDA programs here at the Board. In response to your questions:

1. There are requirements for clinical instruction in extra mural facilities in 1070.2 (d)(C) (5). The regulations require no less than "800 hours, including at least 275 hours of didactic instruction, at least 260 hours of combined laboratory or preclinical instruction conducted in the program's facilities under the direct supervision of program faculty or instructional staff, and the remaining hours utilized in clinical instruction in extramural dental facilities." The hour breakdown is as follows
800 total hours
-275 hours didactic instruction
-260 hours lab/ preclinical

265. hours extramural
2. If you plan to make any major changes to the program, facilities or faculty, you are required to notify the board within 10 days of the change. We will then review the changes to ensure the program still meets the requirements outlined in the regulations.
3. Again, students must complete the instructional hours outlined in the regulations. Students can not complete the RDA course without completing the required 265 hours of extramural instruction.
4. Unfortunately, since your program is not approved to provide stand alone courses, individual certificates can not be issued to students of your program at this time.

I hope I have answered all of your questions. If you have any additional questions, please feel free to contact me. Thank you.

Justin Lehr
Education Coordinator
Dental Board of California
